The Gateway To The Americas

A GLANCE at the map shows the impor-tance of New Orleans to Latin American trade. Do not confuse the importance of New Orleans in this respect with other Southern towns and cities. New Orleans has the ship lines, it has the regular sail-ings. It has a great docking system and transportation advantages. It has the financial institutions to take care of interfinancial institutions to take care of international trade. In spite of the slow development in the past, the future is bound to show a great business development in the countries to the South Latin America will buy our goods if we manufacture them at the right price and give them service. There are \$0,000,000 people within a short stil from the port of New Orleans. Factories that are located at this great city and port will have the advantage of securing the trade of these countries. Select a firm head of lettuce, wash and Cut crosswise into thin slices (as you would slice oranges), arrange 3 small sardines on each serving, and garnish with fancy bits of pickled beet. Drench with a tart French dressing.

Stuffed Celery is an appetizing luncheon dish. Separate the stalk into single pieces. Wash and dry. Fill the hollow of each piece with a mixture made of 1/2 cup cream cheese, 2 tablespoons mayonnaise, 2 tablespoons chopped pickle, and mashed sardine to taste.

Butterfly Salad is a pretty salad to serve as a course. Cut pineapple rings in two, and place on plate with curved sides touching. These form the wings. Make a body of cream cheese; and feelers, two thin strips of pimiento. Maraschino cherries placed on the wings make the spots.

Strawberry Salad is new and tasty. Mix 2 cups of fresh berries and 1 cup of cream cheese broken in small pieces. Fold into ½ cup of heavy cream, whipped. Serve on lettuce.

Beet Salad is made by combining 1/2 chopped cooked beets and 1/2 chopped celery with mayonnaise. Garnish with hard cooked egg white that has been cut into rings. Put the yolk through a coarse sieve and sprinkle on top.

Pea and Celery Salad is made by combining 1 cup of cooked peas and 1 cup chopped celery with mayonnaise. Place each portion on lettuce and add a dash of onion salt.

An Exposition and Sale in Our Early American Room

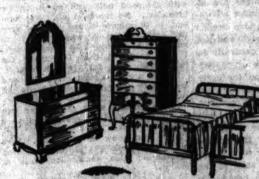

(ON OUR BASEMENT FLOOR)

Connoisseurs today pay large prices for good examples of furniture from the homes of early New England. We are presenting at very modest prices reproductions of these sturdy and charming pieces, in native American woods, stout maple and birch. Some, too, may be had in mahogany. We recommend these pieces for their delightful design, their background of tradition, their lovely color and finish, and their attractively low price.

A Dining Room Group of Exceptional Charm

These three pieces are admirably adapted for the small dining room. They are of birch in antique finish, the table being priced at \$41.50, the dresser at \$85.00 and the chairs

Many Interesting Pieces for the Colonial Bedroom

Quaint spool beds are priced at \$29.50, \$34.50 and \$43.50, a handsome highboy at \$113.50, a lowboy at \$79.50, and mirror at \$22.50. The highboy and lowboy have fronts of fine curly maple, and are beautifully built. You will find here, too, the correct tables, chairs, rugs and lamps to complete this comfortable bedroom.

For the Breakfast Room

These little pieces make delightful sets for small rooms. The table is \$19.50, the buffet \$37.50, the china cabinet \$37.50 and the chairs \$5.95 each.

Odd Living Room Pieces

The graceful Windsor chair shown in the group below is priced at \$10.75 in maple finish. The large armchair, with seat cushion in cretonne, at \$29.75, is one of several interesting armchairs available at low prices. There are many decorative lamps, bookshelves, etc., to brighten the living room.

We Display Smart Occasional Pieces in Wide Variety

Below are typical Colby values in sturdy Early American pieces. The large wing chair is \$55.00 in cretonne, the three shelf table \$14.50 in maple finish or \$12.50 in mahogany finish, the desk \$25.00 and the fine large gateleg table \$25.00 in maple finish or \$17.50 in dark mahogany.

Grandfather's Hat doesn't fit

ARTMAN'S has outgrown the bell-crowned beaver under which it began; it has outgrown yesterday's standards and notions, as it has outgrown warehouse and store space and old quality levels.

Grandfather's hat doesn't fit today's overheads.

A third crop of experience is now being gathered from the same family tree.

We're merchandising with a judgment ripened by 62 years' hard schooling and corrected by nearly \$200,000,000 worth of total purchases.

Time has taught us that cheapened goods are never cheap—that good-will is more important than a single sale—that profit comes only from value and service.

Consequently, these have become better and better stores, whose prices begin where satisfaction can be and is guaranteed.

Grade for grade, we still undersell the country.

Sixty-two years of continuous family management!
A business must be fundamentally right to last that long.

Irresponsibility doesn't survive. Concerns can't grow and grow except through fair play and square ways.

If HARTMAN'S hadn't kept faith for more than half a century, its volume would not annually set new national records.

We've retailed furniture twice as long as most manufacturers in America have been making it.

These store are a testing ground for the industry.

We know the resources and the product of every good plant in the United States—and its reliability.

Paint and Varnish can't deceive such knowledge: no lesser training could teach as much about the tricks of a trade, with so many plausible makeshifts at command.

But wear and tear soon disclose unseasoned wood, pinchbeck veneers, puttied joints, superficial rubs, shoddy fabrics, weak springs, sweat-shop upholstering, flash hardware and faked finishes.

It finds how muslin bottoms hide the absence of reinforcement.

And sometimes discovers that bleached mahogany poses for satinwood.

Layrn en aren't aware how the pattern of quartered oak can be transferred to poplar. And that walnut burls are printed so cleverly that the imitation would easily fixed a forest—

-but we don't let 'em fool you.

The occasional suite or piece that does carry such a synthetic panel or top is plainly indicated here.

Rhin stones aren't permitted to pose as diamonds in our establishments.

You hay safely when you buy at HARTMAN's—because we purchase and sell by specification.

Ordinary factory practice doesn't meet our special standards.

Oh, Custard pie! Whence this divine deliciousness? Surely, from the rich, whole with which it's made. For no filling made of water could possibly be custard. You'll say the same of macaroni, too, when once you know the goodness of the New Milk Macaroni, the only macareni made with milk. It is more nutritious. Cooks in five to eight minutes. You can feel as well as taste the difference.

Sets a New Standard

A motorist who has been using Red Crown-Ethyl and Iso = Vis motor oil, says that he never knew such "perfect service" could be obtained. Actual use—that's the best test of any product. In actual use Iso = Vis exceeds all expectations! Iso = Vis sets a new standard!

Thousands of motorists have taken the time and trouble to write us enthusiastic letters like the one below, telling how Iso - Vis has proved itself in actual use.

South Side Lumber Compas F. A. Hoppert, Prop. 3011 South Adams Street Peoria, Illinois

February 2, 1927

"Mr. H. C. Griffin, Manager, Standard Oil Company (Indian

"A car operator hears a great deal about the merits of various oils and gasolines, but the final analysis is the actual results obtained.

"My Buick car is now being operated on Red Crown-Ethyl Gasoline and lubricated by Iso-Vis Motor Oil, and I will frankly say that I never knew such perfect service could be obtained until I changed to these two products, which you have produced.

"I like to pass on good things to the other fellow—so I am writing you this letter to express my appreciation and to permit you to pass this message on to other owners of Buick cars.

"I have had easy starting at all times, even er most severe conditions, and my oil gauge stains even pressure at all speeds.

This letter tells something of the amazing efficiency of Iso = Vis. Iso = Vis gives thorough and complete lubrication every day in the year — every mile of every trip—all the time!

Iso = Vis has astonished the motoring world. It is a revolutionary motor oil. Oil of the past thinned out. Iso = Vis maintains a constant viscosity—constant efficiency—from start to finish. Try Iso = Vis once — and you'll understand its enormous popularity! Consult Chart for Correct Grade for Summer. 30c per quart -a little more per quart-less per mile.

SPEAKING OF **SPORTS**

BY DON MAXWELL. Fate of the horse racing bill will b settled soon in the state legislature. Chicagoans interested in Lincoln Fleids, Homewood, and Hawthorne have worked hard to obtain its passage. They seek to legalize horse races and the mutuels. They believe that the measure will pass.

not from the foes of horse racing. It comes from men who want to operate dog tracks. The cause of the antagonlam is easily discerned.

The race track bill, if passed, would eliminate the greyhounds and the meeliminate the greyhounds and the mechanical rabbit from Illinois. One of
the clauses provides that racing may
not be held at night—the time when
the dogs run. And the bill calls for the
daily payment of a tax beyond the
ability of the dog tracks.

The greyhound men might operate
this summer under injunctions—just
as they did last year. But they would
be forced to ship their running canines
elsewhere if the horse racing bill becomes a law.

Dog track promoters have made numerous overtures to the horse interests. They have pleaded for amendments to the proposed law, eliminating the clauses aimed at the grayhounds. The dog men have offered to join with the horsemen for the passage of the bill if the horsemen will forego the ban on the rabbit chasers.

Wildrake Wins Secondary.

It was the second close decision Eager's owner, Dr. L. M. Holmes of New Orleans, lost during the afternoon, his sprinter, Waponoca, having been beaten after a hard struggle by Wildrake in the secondary feature. Wildrake was making his third start here and the track was much more to his liking than the heavy going he tried to pegotiate last week.

Favorites were in complete eclipse, not one being able to poke his nose past the finish line in front.

THE wants of the peasant are simple, his daylight hours filled with constant toil as he tills his few acres of ground. But rest from the day's work is found by his fireside, under the thatched roof of his little home.

More than once his savings have financed a nation. Wars have been fought to protect his land. And, largely because he owns his home and the little plot of ground surrounding it, he is the backbone of many countries. For the home, however humble, is the center and soul of any nation's life.

There is a truth of vital importance to investors in this fact. When you place your funds in the modern type of home-secured investments—bonds on city apartment buildings—your money is protected by the most basic of all needs. Before men need railroads, electric lights or other conveniences; even before schools or churches—they need homes.

The safety of Lackner, Butz first mortgage bonds is based on this common need. Safeguarded and protected by an organization which for years has regarded safety as its chief concern, they offer the ultimate in sound investments. Ask for Circular LB-17.

For Record Protection

It takes years to collect the important facts and figures on which successful business is built. Deprived of them by fire, many firms are faced with ruin. The safest way is to keep them in an Allsteel safe bearing the label of the Underwriters' Laboratories. Your inventories, accounts, plans and specifications, lists of customers and other important records should have this dependable protection. Ask for a copy of "Safeguarding Vital Records."

WHAT is imsett System

and WHAT DOES IT do?

"Wimsett System", founded by Albert B. Wimsett seven years ago, is the medium whereby honest, conscientions, deserving persons in time of stress and emergency can receive financial relief without exploitation. A Wimsett System Company is a community seset—as much a local improvement for the public good as a sanitary sewerage sys-tem, an efficient fire department or an electric lighting plant.

AWimsett System Company is not a com-mercial bank, but a financial institution that loans money to people who do not have banking affiliations. It loans upon their char-acter and the confidence imposed in them

The interest rate is low because the capital of the company is always turning, always earning. The loss on character loans is negligible—in the United States an average of less than 1/10 of 1%.

The capital invested is safe for these same two reasons, steady earnings and negligible loss. No Wimsett System Company has ever failed.

Nearly every city of 10,000 people or more needs a Wimsett System Company to protect its

workers in financial emergencies and relieve the distress of burdensome debts.

There are more than one hundred and twenty cities in the United States served by Wimsett System Companies. Combined, they have resources of over \$15,000,000.00 and are loaning approximately \$50,000,000.00 yearly to working people and others. These loans are made on an ethical, fair and square, business-like basis and for essential purposes

Formed at the solicitation of the progressive and public-spirited business and professional men of the communities they serve, they function as relief to debt-burdened individuals and the liquidation of frozen credits.

Wimsett System Companies have as directors and stockholders many persons of outstanding prominence.

Are you interested in promoting thrift in your community and putting it on a sounder foundation? Then write us for complete information on all phases of the Wimsett System. You owe it to the people and the business interests of your commu-

For detailed information regarding these Bonds, attention is directed to a letter of Mr. Pred W. Insull, President of the Company, from which the following is summarized:

The Company: The Public Service Com-pany of Oklahoma, upon completion of pres-ent financing, will supply electricity without competition in the cities of Tulsa and Okmulgee and 68 other communities in Oklahoma. The Company will also supply ice to 13 com-munities. Some of the industries that create a large and growing demand for power are: smelters, glass plants, oil refineries, cotton gins and mills. The population of the commu-nities to be served is approximately 254,000.

Security: These Bonds, in the opinion of counsel, will be secured by a first mortgage on all of the fixed properties, rights and franchises of the Company now owned, and on all such property hereafter acquired against which any Bonds can be issued under the Mortgage.

Purpose of Issue: The proceeds of these Bonds will be applied toward acquisition of additional property and for other corporate

Earnings: During the twelve months ended December 31, 1926, gross earnings (77.8% from electricity) of the Company as it will be constituted upon completion of the present financing were \$4,459,444 and net earnings (80.4% from electricity) before deprecia-tion were \$2,023,160, as compared with annual interest requirements on First Mort-gage Bonds to be outstanding of \$662,500.

Monagement: The Company is controlled, through the Central and South West Utilities Company, by the Middle West Utilities

Russell Plan Trust

\mathcal{A} "Piece of Paper" that is a piece of Property

Even a casual study of the future of Chicago real estate and building values will indicate to you the wisdom of investing in Russell Plan Trust Ownership Certificates.

Each Ownership Certificate makes you an actual part owner in a specific building and the real estate on which it stands. The Russell Plan Trust accepts only apartment and other buildings in good residential centers where real estate values are constantly increasing. Three appraisals govern the listed value of each property. Your title is guaranteed by the Chicago Title and Trust Company, and the Chicago Trust Company acts as trustee for all certificate owners.

Both Interest and Profits

These Ownership Certificates not only pay handsome interest, but each one gives its owner his share in all profits realized from the property, whether from rentals or ultimate sale. As an investment it is hard to find anything more attractive. Each certificate is subject only to real property tax.

City of Trondhjem (Norway)

Thirty-Year 51/2 Sinking Fund External Loan Gold Bonds Dated May 1, 1927 Due May 1, 1957

Trondhjem: The City of Trondhjem, the former capital of Norway, founded in the year 997, is the third largest city and one of the leading commercial centers of the Kingdom. It is an important year-round seaport, is situated in the center of a fertile agricultural district, and has large paper and cellulose mills and canning factories in addition to shipyards and metal working industries. Near the City are located large and important pyrites mines. The population of Trondhjem at December 31, 1925, was 55,527.

Credit: The City of Trondhjem has always enjoyed high credit. Prior to the war its total funded debt consisted of four internal loans issued between 1895 and 1914 bearing interest rates ranging between 3½% and 4½%. There is no record of any default in payment of interest or principal of any debt of the City of

Purpose of Issue:

The proceeds of this Loan are to be used in the redemption of the \$2,500,000 bonds of the 6½% dollar loan of 1924. The total debt of the City will not, therefore, be materially increased by this issue, and the annual charges for debt service will be reduced.

The debt of the City of Trondhjem, as of June 30, 1926 (latest official figures available), amounted to Kr. 60,685,693 (\$16,263,765). The City owns property officially valued at Kr. 128,413,141 (\$34,417,721), including revenue producing gas and electric plants and tramways valued at Kr. 70,343,908 (\$18,852,167).

Actual revenues of the City have exceeded expenditures in each of the five fiscal years ended with June 30, 1926, except in one year when there was a deficit of \$4,273. Over the entire five-year period such revenues exceeded expenditures by Kr. 3,993,785

Budget of the City for the fiscal year ending June 30, 1927, balances at Kr. 15,707,433, (\$4,210,592).

How to Study Interest Rates

Our salesmen are taught to analyze interest rates intelligently, to make comparisons, and to study trends.

For example, they are in touch with the interest rates on call money, on good short term paper, on high grade municipals and on bonds of other classes.

They are taught how to analyze the underlying causes for changes in interest rates, for such changes are quick to influence security

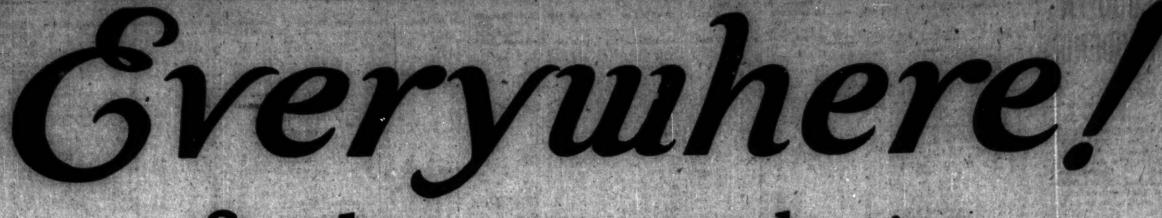

A thorough knowledge of interest rates is essential before one can determine whether a bond is overpriced or underpriced. This close attention to interest rates is but one feature of the comprehensive study program which has made H. O. Stone salesmen investment specialists rather than mere security salesmen. Such knowledge enables them to explain the advantages of H. O. Stone bonds far more intelligently than would be possible without it.

For example, take this subject of interest rates and its relationship to H. O. Stone First Mortgage Real Estate Bonds. A comparison of rates will disclose the fact that H. O. Stone Bonds sell on a basis to yield 1% to 11/2% more per annum than most high grade nationally known and widely distributed issues of corresponding

REMARKS: This picture marks young Buffalo Bill Jr.'s screen debut, and though it takes you a long time to forgive him for putting a burnunder the broncho's saddle, you realize that he is a pleasant, open-faced youth who rides well, photographs well—and knows it.

Olive Hasbrouck as the heroine is extremely pleasing. There's a "genuine" trademark about her work that

Round of Affairs for German Ambassador

One social function after another is scheduled on the program Chicago friends and admirers have mapped out for the German ambassador and his wife, Baron and Baroness Ago von Maltsan, who will arrive this evening to remain until Sunday. They are due to reach Chicago at 5 o'clock at the La Salle street station.

WOMAN'S AND MISSES' DRESS.

Cadet blue crêpe satin would be most attractive made up in this design, and the pocket, collar and tie, and trimming on the sleeves can be made of the reverse side of the material or one of the gaily colored trimming bands may be used.

The pattern, 744, comes in sizes 16, 13, and 20 years and 36, 38, 40, and 42 inches bust measure. Size 36 requires 4 yards of 36 or 40 inch material.

How To Improve Your Complexion

Observe 50th Anniversary Mr. and Mrs. J. C. Ruthenberg, 1126 South East avenue, Oak Park, cele-brated their 50th wedding anniversary

EMBARRASSING MOMENTS

My most embarrassing moment came when I was a green young girl of 22 and about to be married. As my flance welld not arrive in my home town until the night before the wedding day I had to procure the license. The town hall was only three blocks from my house, so I dropped in one day and answered the questions in a breathless, shaky way. My composure was utterly routed, however, when the clerk demanded two dollars. I had not known marriage cost anything and had not a cent with me!

NEW YORK.—[Special Correspondence.]—This frock has a clear title to fashion. In fact, it is registered in

the Almanach de Style as a V-Count. For it is plain to be seen that V does count heavily in its make-up, both in front and back.

By such an original touch is this little frock of familiar line distinguished. Executed in silk broadcloth of pale gray with shades of purple striped across, it sponsors a skirt of all-over knife plaiting and a straight line jumper. Plain gray fabric makes a V shaped neck line in front and a bow tie and in the back runs down to a point just above the waist line. A close fitting hat of varnished straw with tiny turned back brim completes the costume.

with tiny turned back brim completes the costume.

Various patterns of color are much accented nowadays in the development of dresses for more formal sports. Crêpes in tiny checks, developed in jumper mode and finished with white collars and cuffs offer one interpretation. Another is put forward by a particularly charming model which combined a white top section simulating a jumper with a gally printed skirt

What kind of Subdivision property is easier to sell this eas? Properties improve vith sewer, water, gas, electricity, sidewalks, paving rees, shrubs, etc., or vacan roperties without any in ments and miles away om nowhere?

A salesman is in much the same position as the buyer of real estate. If he engages in elling the best the marke offers he will have nothing to regret thereafter.

Promises made with luring and painted words have no sarned a dollar in commis sion to any salesmen.

We have just recently opened a new piece of prop-erty, with all improvements included in the purchase price, ready to build at once Why not investigate before you sell, just as you expect your prospect to investigate

before he buys? We need real, red blooded two fisted men, who can and will sell. To them we pledge our very loyal support and co-operation. Drifters, loafers, and advance artists we do not want in our organization. Come in and see me before 3 p. m. without fail.
